guide the way creating a life-long travel memory.

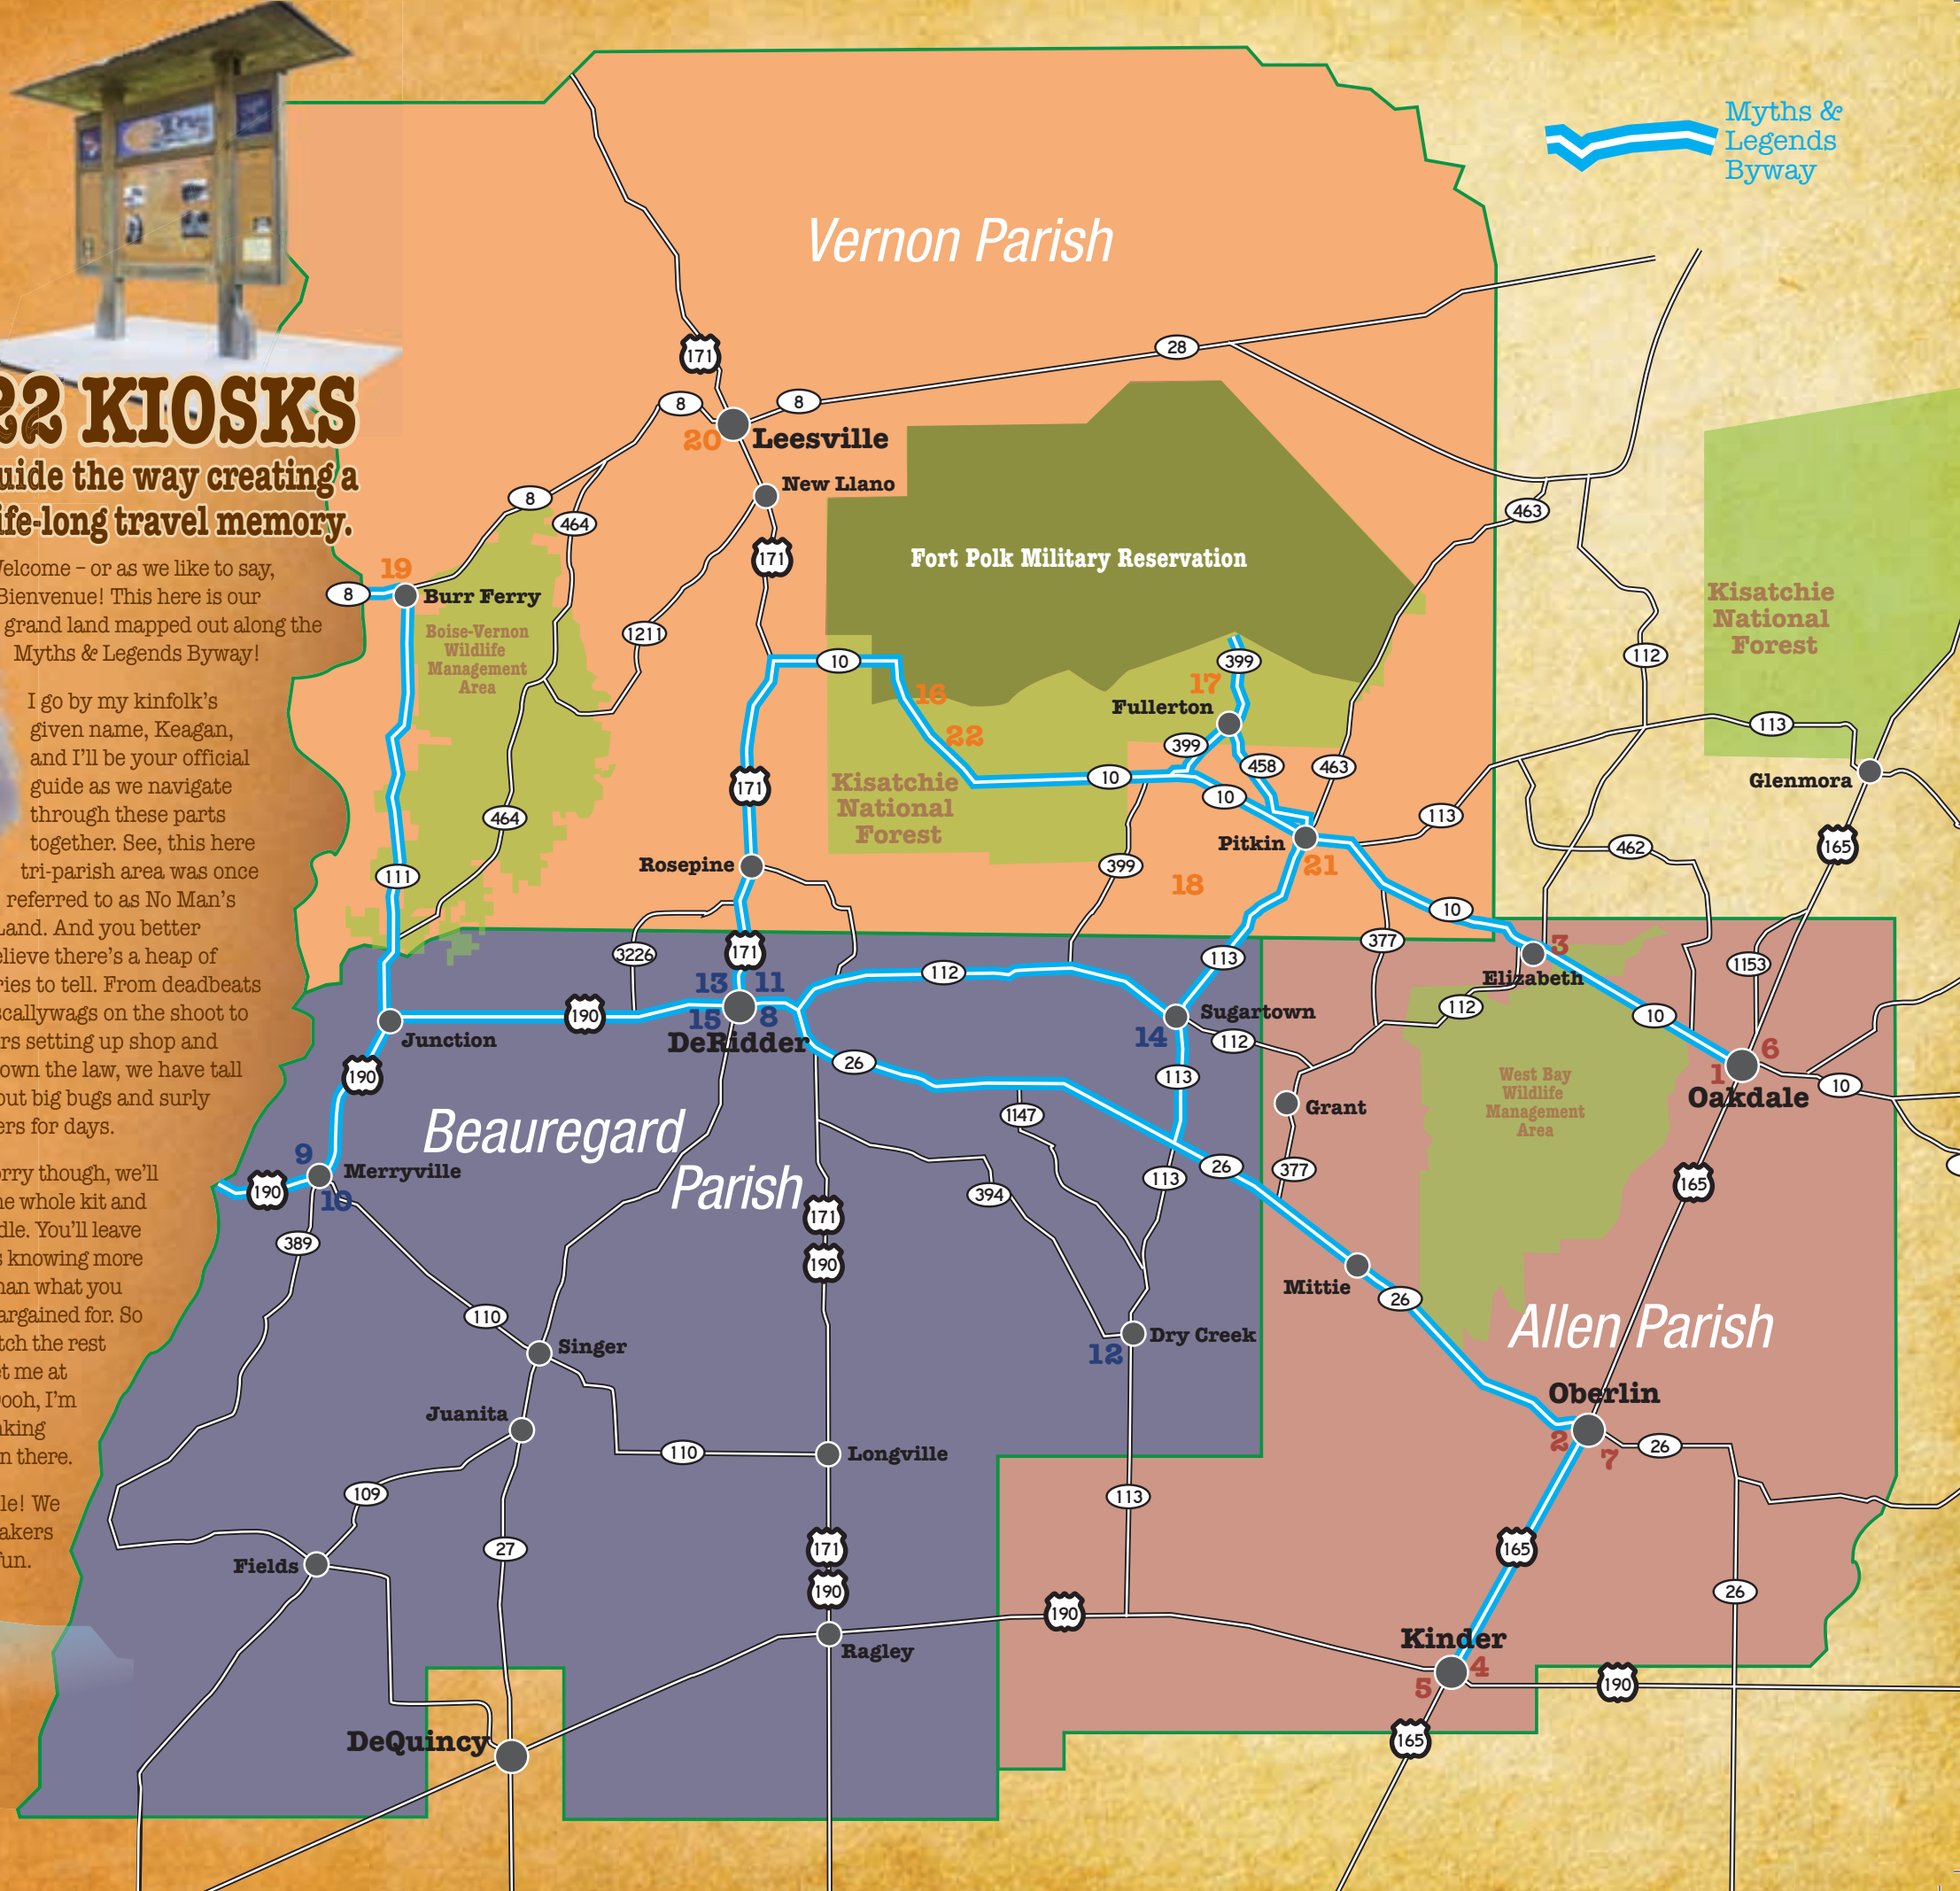

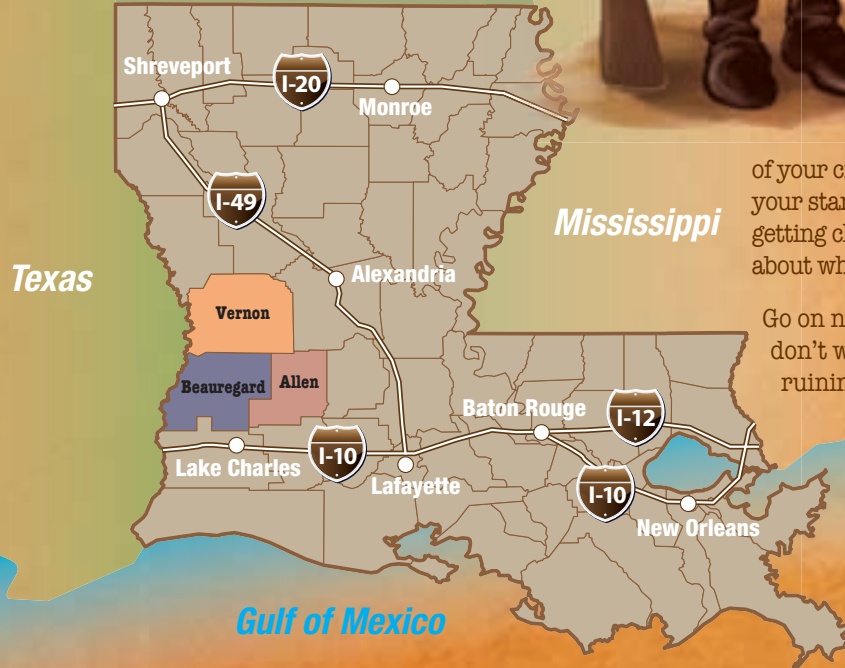

Welcome - or as we like to say, Bienvenue! This here is our grand land mapped out along the Myths & Legends Byway!

I go by my kinfolk's given name, Keagan, and I'll be your official guide as we navigate through these parts together. See, this here tri-parish area was once referred to as No Man's Land. And you better believe there's a heap of stories to tell. From deadbeats and scallywags on the shoot to pioneers setting up shop and laying down the law, we have tall tales about big bugs and surly characters for days.

Don't worry though, we'll cover the whole kit and caboodle. You'll leave us knowing more than what you bargained for. So fetch the rest

of your crew and meet me at your starting point. Oooh, I'm getting chills just thinking about what went down there.

Go on now, skedaddle! We don't want any croakers ruining our good fun.
